- (4) Sections 46(1)(g.1), 46(1)(n), and 46(2.1) of the *Environmental Management Act* do not apply.

### **General Principles of Liability for Remediation**

- 32. (1) A person who is responsible for remediation of a Contaminated Site is absolutely, retroactively and jointly and separately liable to any person or the Aitchelitz First Nation government for reasonably incurred costs of remediation of the Contaminated Site, whether incurred on or off the Contaminated Site.
- (2) Subsection (1) must not be construed as prohibiting the apportionment of a share of liability to one or more Responsible Persons by the court in an action or proceeding under subsection (5) or by the Lands Governance Director in an order under section 33.
- (3) For the purpose of this section, “costs of remediation” means all costs of remediation and includes, without limitation,
  - (a) costs of preparing a Site Profile;
  - (b) costs of carrying out a Site Investigation and preparing a report, whether there has been a determination under section 28 as to whether the site is

- a Contaminated Site;
  - (c) legal and consultant costs associated with seeking contributions from other Responsible Persons; and
  - (d) fees imposed under the authority of a regulation made under this Law or designated by Council.
- (4) Liability under this Part applies
- (a) even though the introduction of a Substance into the Environment is or was not prohibited by an Aitchelitz First Nation law or applicable federal or provincial law if the introduction contributed in whole or in part to the site becoming a Contaminated Site; and
  - (b) despite the terms of any cancelled, expired, abandoned or current approval that authorizes the discharge of Substances into the Environment.
- (5) Any person, including a Responsible Person and the Lands Governance Director, who incurs costs carrying out remediation of a Contaminated Site may commence an action or a proceeding to recover the reasonably incurred costs of remediation from one or more Responsible Persons in accordance with the principles of liability set out in this Part.
- (6) Subject to subsection (7), a person is not required to obtain, as a condition of an action or proceeding under subsection (5) being heard by a court, a decision, determination, opinion or apportionment of liability for remediation from the Lands Governance Director.
- (7) In all cases, the site that is the subject of an action or proceeding must be determined or considered under section 28 to be or to have been a Contaminated Site before the court can hear the matter.
- (8) The court may determine, unless otherwise determined or established under this Part, any of the following:
- (a) whether a person is responsible for remediation of a Contaminated Site;
  - (b) whether the costs of remediation of a Contaminated Site have been reasonably incurred and the amount of the reasonably incurred costs of remediation;
  - (c) the apportionment of the reasonably incurred costs of remediation of a Contaminated Site among one or more Responsible Persons in accordance with the principles of liability set out in this Part; and
  - (d) such other determinations as are necessary to a fair and just disposition of these matters.

### Remediation Orders

33. (1) Subject to this section, and section 39, the Lands Governance Director may issue a Remediation Order in accordance with section 48 of the *Environmental Management Act*.
- (2) Sections 48(3)(d), 48(3)(e), 48(3)(f), 48(6), 48(7), 48(10) and 48(11) of the *Environmental Management Act* do not apply.
- (3) In addition to the factors provided under section 48(3) of the *Environmental Management Act*, as modified under this section, the Lands Governance Director must consider any other factors prescribed by Council.
- (4) If a Remediation Order that imposes a requirement for remediation is issued in respect of a site, and the Lands Governance Director has not yet determined under section 28 whether the site is a Contaminated Site, as soon as reasonably possible after the issuance of the order, the Lands Governance Director must determine
- (a) whether the Site is a Contaminated Site in accordance with section 28; and
- (b) whether the person named in the order is a Responsible Person in accordance with section 30.
- (5) If a person named in an order referred to in subsection (4) is determined not to be a Responsible Person, the Aitchelitz First Nation government must compensate the person for any reasonable costs directly incurred by the person in complying with the order.

### Certificate of Compliance

34. Upon completion of the remediation of a Contaminated Site to the satisfaction of the Lands Governance Director and in accordance with the Remediation Order, the Lands Governance Director must, within a reasonable time, deliver a Certificate of Compliance to every person holding an Interest in the site if the Interest is registered in the Registry at the time of issuing the Certificate of Compliance.

### Selection of Remediation Options

35. (1) A person conducting or otherwise providing for remediation of a site must give preference to remediation alternatives that provide permanent solutions to the maximum extent practicable, taking into account the following factors:
- (a) any potential for adverse effects on human health or the Environment;
- (b) the technical feasibility and risks associated with alternative remediation options;
- (c) remediation costs associated with alternative remediation options and the potential economic benefits, costs and effects of the remediation options; and
- (d) any other factors prescribed by Council.

- (2) When issuing a Certificate of Compliance, the Lands Governance Director must consider whether permanent solutions have been given preference to the maximum extent practicable as determined in accordance with any guidelines set out in any regulations made under this Law.

### **Orphan Sites**

- 36.** (1) Subject to section 39, the Lands Governance Director may determine whether a Contaminated Site is an Orphan Site in accordance with section 61 of the *Contaminated Sites Regulation*.
- (2) The Lands Governance Director may declare, in writing, that it is necessary for the protection of human health or the Environment for the Aitchelitz First Nation government to undertake remediation of an Orphan Site.
  - (3) If the Lands Governance Director has made a declaration under subsection (2),
    - (a) the Lands Governance Director may carry out remediation and recover the reasonably incurred costs of the remediation and the Lands Governance Director may, even though the ordered action interferes or takes away property rights, order any person to
      - (i) provide labour, services, material, equipment or facilities, or
      - (ii) allow the use of land for the purpose of undertaking the remediation; and
    - (b) the Lands Governance Director, or any person authorized by the Lands Governance Director, may enter property and carry out remediation, even though the entry or remediation interferes with or abrogates property rights.
  - (4) A person affected by an order made under subsection (3)(a) must comply with the order despite any other enactment.
  - (5) A certificate signed by the Lands Governance Director and showing an amount of money spent by the Aitchelitz First Nation government under this section is conclusive proof of the amount spent.
  - (6) If the Lands Governance Director makes a declaration under subsection (2) or an order under section (3)(a), a notation must be made in the Registry of the declaration or order against the property that has been remediated under this section.

### **Cost Recovery if Lands Governance Director Carries out Remediation**

- 37.** (1) The Lands Governance Director may recover all or a portion of the cost of remediation by
- (a) taking steps to identify and recover costs from Responsible Persons during or after remediation; or

- (b) arranging to sell or selling any goods or equipment or property located on or comprising all or part of the site.
- (2) The amount shown on the certificate under section 36(5) is a debt due to the Aitchelitz First Nation government and, subsection (3), is recoverable
  - (a) from any Responsible Person, by action in a court of competent jurisdiction;
  - (b) by order of the Lands Governance Director directing a person who is purchasing or otherwise acquiring an Interest in land that is subject to remediation under section 36 to pay to the Lands Governance Director, in relation to the amounts spent on remediation, instead of to the vendor, an amount not exceeding the amount owing to the vendor, and the purchaser is discharged in the amount paid to the Lands Governance Director from the obligation to pay the vendor; or
  - (c) by adding the debt to property taxes or other fees or taxes owing if permitted by Aitchelitz laws.
- (3) If a court is satisfied that the expenditure incurred by the Aitchelitz First Nation government under section 36 is either excessive or unnecessary taking into consideration generally accepted remediation practices, the court may reduce or extinguish the amount of the judgement that it would otherwise have ordered against the person against whom the action has been brought.
- (4) If the Lands Governance Director makes an order under subsection (2)(b), a notation must be made in the Registry of the order against the property that has been remediated under this section.

#### **Lands Governance Director Retains Right to Take Future Action**

- 38.** The Lands Governance Director may exercise any of the Lands Governance Director's duties or powers under this Part, even though they have been previously exercised and despite any voluntary remediation, if
- (a) additional information relevant to establishing liability for remediation becomes available;
  - (b) activities occur on a site that may change its condition or use;
  - (c) information becomes available about a site or a Substance at the site that leads to a reasonable inference that the site poses a threat to human health or the Environment;
  - (d) a Responsible Person fails to exercise due care in relation to any Contamination at the site; or
  - (e) a Responsible Person directly or indirectly contributes to Contamination at the site after previous action.
