### MyCLSS is...

a collaborative site between the Association of Canada Lands Surveyors (ACLS), the Surveyor General Branch (SGB) and the Land Administrating Agencies to allow surveyors to:

- initiate a survey project
- request survey instructions
- use online tools to help the surveyor in the production of official plans
- monitor project status until completion
- submit digitally signed survey documents for recording
- obtain approvals

MyCLSS provides surveyors quick reference to relevant survey information to assist them through the survey process. Surveyors should contact the [ACLS](#) to obtain access information.

MyCLSS also provides an electronic tool for land administrators to carry out the approval process of survey plans. Administrators should contact the SGB to obtain access information.
