1. Operations

The First Nations Land Management Resource Centre Inc. is a band empowered entity created to facilitate the implementation of the *Framework Agreement on First Nation Land Management*. The Resource Centre is incorporated under Part 2 of the Canada Corporations Act. The company is a band empowered entity within the meaning of the Income Tax Act (Canada) and is exempt from income taxes.

2. Economic Dependence

The First Nations Land Management Resource Centre Inc. receives a substantial portion of its revenue pursuant to funding arrangements with Indian Affairs Canada.

3. Significant accounting policies

(a) Capital assets

Capital assets are recorded at cost as an addition to capital assets with a corresponding increase in equity in capital assets. These acquisitions which are not funded through capital financing are also charged as an expense to operations and matched with the applicable revenue source in the year of expenditure.

Amortization is recorded as a reduction of equity in capital assets and is based on the estimated useful life of the asset as follows:

Office equipment	- 20% diminishing balance basis
Leasehold improvements	- 5 year straight line basis

Amortization is provided for at one-half of the above rates in the year of acquisition.

(b) Revenue recognition

The First Nations Land Management Resource Centre Inc. receives its revenues pursuant to annual funding agreements with the Minister of Indian Affairs and Northern Development. Revenue is recognized as it becomes receivable under the terms of the funding agreements.

(c) Financial instruments

It is management's opinion that the company is not exposed to significant interest, currency or credit risks arising from its financial instruments unless otherwise noted. The fair values of the company's financial instruments approximate their carrying values, unless otherwise noted.

(d) Use of estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.
