

OVERVIEW OF PLANNING SUPPORT SERVICES TO FRAMEWORK AGREEMENT FIRST NATIONS

The Hub was created to assist First Nations in improving Land Code governance through effective planning. Through the Hub, the Resource Centre (RC) continues to provide training, technical assistance, and in some cases, financial support for planning on-reserve. The aims of the Hub are to: 1) assist communities in moving further away from the *Indian Act*; 2) promote effective, innovative and holistic planning; 3) elevate Indigenous Planning practices; and 4) to coordinate planning-related knowledge mobilization and capacity development.

For more information, please contact us along with your RC First Nation Support Services Technician or Manager:
